

WaterHOG™ ZERO LOSS COMPRESSED AIR CONDENSATE TRAP

- **POWERS THROUGH CONDENSATE BUILDUP.** Ideal for compressor applications up to 100 hp. The WaterHog™ design avoids small passages common on competitor designs, ensuring clog-free operation.
- **FULLY AUTOMATIC OPERATION.** No timer or manual settings.
- **NO ELECTRICAL CONNECTIONS.** WaterHog™ is powered by compressed air, avoiding the need for electrical wiring and connections.
- **ENERGY SAVING OPERATION.** Zero compressed air loss*. WaterHog™ pays for itself when replacing open condensate drain valves or timer traps.
- **LOW PROFILE.** The 4.7" vertical operating height allows WaterHog™ to fit where other larger units can't.

**When properly installed with balance line.*
