

CaterTemp[®] Thermometer

complete with food penetration probe

- temperature range -49.9 to 299.9 °C
- FREE traceable certificate of calibration
- 2 year guarantee
- 0.1 °C resolution

The CaterTemp professional digital thermometer is designed with the catering and food processing industry in mind and incorporates a combination of proven circuitry and durability. The CaterTemp thermometer is housed in a robust ABS case that includes 'Biomaster' additive to reduce bacterial growth.

The CaterTemp measures temperature over the range of -49.9 to 299.9 °C with a resolution of 0.1 °C. The instrument features a bright, easy to read LCD, displaying open circuit and low battery indication, when applicable.

The thermometer is powered by three AAA batteries that give a minimum of five years battery life. The CaterTemp will power off automatically after ten minutes, maximising battery life.

Each thermometer is supplied with a permanently attached food penetration probe with a 130 mm pointed, stainless steel stem and one metre coiled PU lead.

| order code | description |
|------------|----------------------------------|
| 221-046 | CaterTemp |
| 830-227 | protective silicone boot - black |
| 832-053 | s/steel wall bracket & boot |

optional accessories

- protective silicone boot - the CaterTemp is water resistant to IP65 when used in conjunction with this boot. Various colours available - see page 14
