

# Milk Frothing/Pocket/Cheese Thermometers

bi-metal, 35mm dial with jug mounting probe clip

- dishwasher safe
- adjustable calibration nut
- quality tested in Australia
- food safe stainless steel

These multi-purpose thermometers measure temperatures over the range of 0°C to 100 °C. The thermometers are available in various stainless steel probe lengths and colour coded dials. Each thermometer is supplied with a stainless steel jug mounting probe clip, calibration nut and protective probe cover.

Easy to clean, this dishwasher safe thermometer can be placed in the dishwasher for cleaning and sterilising.
