

SuperFast ThermoPen® 4

digital thermometer

- patented, automatic 360° rotational display
- reaches temperature in just 3 seconds
- auto intelligent backlit display
- waterproof to IP66/67

The SuperFast ThermoPen is the UK's number one selling food thermometer measuring temperature over the range of -49.9 to 299.9 °C. Used by hundreds of thousands of people worldwide, it offers a combination of speed, accuracy and convenience of use.

Using advanced technology the new ThermoPen 4 includes a number of innovative features. The patented 360° self-rotating display can be used in any position, in either hand. The unit incorporates an intelligent backlit display sensing light levels, automatically turning the backlight on/off in varying light conditions. The motion-sensing sleep mode automatically turns the ThermoPen 4 on/off when set down or picked up, maximising battery life.

The casing is washable and includes 'Biomaster' additive that reduces bacterial growth and the ergonomic rubber seal minimises the risk of the ingress of water, dust or food. As well as being waterproof to IP66/67, it is still 'probably' the fastest reading contact thermometer on the market today. The true temperature of a product can be tested in just three seconds. The ThermoPen 4 incorporates a reduced tip, stainless steel, penetration probe (Ø3.3 x 110 mm) that conveniently folds back through 180° into the side of the instrument when not in use.

The ThermoPen 4 is powered by a single AAA battery with a life expectancy of 3000 hours in normal use, without the backlight. Both low battery (icon) and open circuit indication are displayed, when applicable. Each ThermoPen 4 is supplied with a FREE traceable certificate of calibration.

truly ambidextrous

automatic 360° rotational display.

830-465	silicone boot - glow in dark
830-110	protective wallet
830-001	zip pouch
832-200	wall bracket

specification	SuperFast ThermoPen 4
range	-49.9 to 299.9 °C
resolution	0.1 °C or 1 °C - user selectable
accuracy	±0.4 °C (-49.9 to 199.9 °C) otherwise ±1 °C
battery	1 x 1.5 volt AAA
battery life	3000 hours (normal use, without backlight)
sensor type	K thermocouple
display	15 mm (horizontal) & 11mm (vertical) LCD
dimensions	19 x 50 x 157 mm
weight	120 grams

FREE traceable certificate of calibration included

catering thermometers
