

AquaTemp™ 1 & 5 waterproof thermometers

- ✓ waterproof case offering IP66/67 protection
- ✓ unique ergonomic design
- ✓ range -49.9 to +199.9°C or -50 to +300°C
- ✓ designed for reliability & ease of use

The AquaTemp waterproof thermometers are housed in unique, robust waterproof cases offering IP66 and IP67 protection. The AquaTemp utilises tried and tested electronic circuitry, designed for reliability and ease of use.

The thermometers indicate temperature over the range of -49.9 to +199.9°C or -50 to +300°C with a 0.1°C or 1°C resolution. Both probe open circuit and low battery are displayed, when applicable. The AquaTemp's auto-power off facility automatically turns the instrument off after four minutes, maximising battery life.

The AquaTemp's unique ergonomic design incorporates a rubber over-moulded case that helps to reduce the possibility of damage in harsh environments. Designed for one-handed operation, the AquaTemps incorporate a rigid, pointed, stainless steel penetration probe (Ø3.3 x 110mm) and are supplied in an ABS case with battery and instruction card.

truly waterproof

optional accessory

The clear polycarbonate wall bracket stores the instrument safely (screws not supplied).

specification	AquaTemp 1	AquaTemp 5
range	-49.9 to +199.9°C	-50 to +300°C
resolution	0.1°C	1°C
accuracy	±0.4°C ±1 digit	±1% ±1 digit
battery	12 volt MN21 alkaline	
battery life	100 hours	
sensor type	K thermocouple	
display	12.7mm LCD	
dimensions	28 x 64 x 148mm	
weight	155 grams	

a traceable certificate of calibration is included with each instrument

order code	description
231-001	AquaTemp 1 thermometer
231-005	AquaTemp 5 thermometer
832-105	wall bracket
