Tank Level Gauge

The **MT PROFIL** mechanical tank gauge displays the depth of water in rainwater tanks, drums or any fluid container

Suitable for tanks up to **2.5 metres** deep

Easy Installation – 1 ½" male thread. The gauge can be mounted in minutes on the top of your tank using an optional flange fitting

No batteries or wiring are needed

The gauge comes with a 90mm easy to read dial face, which registers up to 250cm depth when your tank is full and zero when empty

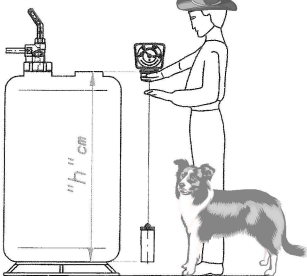

Calibration is easy and requires only reversal of the dial to suit a tank depth of 150cm.
